# King Solomon's Temple

Hiram Abif, the highest ranking architect of King Solomon, was murdered by three 2nd Degree Masons when the Jewish Temple was almost completed. He died protecting his knowledge.

The story of Hiram Abif is an inspirational starting point for all modern day 3rd Degree Master Freemasons. February 2009, Richard Del Connor, The Hippy Coyote, was raised to Master Mason. Our Kung Fu Cowboy discovered, June 6, 2009, that one of the Kung Fu Forms he'd learned was coded with Masonry secrets.

The ancient love triangle and associated stories paralleled Coyote's current years. Using the music of Coyote's life, American Zen is recreating the story of King Solomon into this rock opera as Coyote progresses upward on his spiritual quest for Zen Buddhist Nirvana.
